

Read this if you don't do anything else

- 1) Cut cable ties on the inside of the printer before turning it on (usually 3 cable ties).
- 2) Watch set up videos /troubleshooting videos at www.pirate3d.com/tutorials.
- 3) DO NOT download the Chrome app which is for old versions of the printer.

Go To: <http://pirate3d.com/windows>

4) DO NOT calibrate the printer the first time you use it as it is calibrated for you at the factory.

5) DO NOT run the software on Mac as it is not supported.

6) If you need help, email: support@pirate3d.com

PRINTER APP SETUP

PIRATE3D

Serial Number: B1019191010

Model: B10576

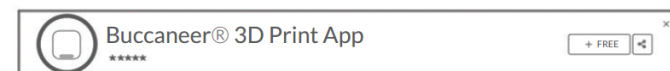

Wifi SSID: Buccaneer - xxxx
